The seasonal shallow pools or huge puddles of water around the woods have an official name. They're called **VERNAL POOLS** and are described by scientists as "naturally occurring, seasonal wetlands occurring in shallow depressions within a forested landscape that lack fish". In Michigan, they're an average size of .25 acres, and are typically less than 3 feet deep. They're high on the radar of ecologists because of the role they serve in the overall forest ecosystem. If you get your swampers on right now and go for a walk in low-lying woods, you're likely to see a few of these pools. You can even sign up to be a part of the Michigan Citizen Vernal Pool Patrol. ## Registration is Now Open for the DNR's Annual Becoming an Outdoors Woman (BOW) Summer Workshop at Bay Cliff Health Camp in Marquette County

The Michigan DNR's 27th annual summer BOW gathering for women, 18 and older, which is set for May 31 - June 2 in Marquette County, is now open for registration. It's a program for women who are seeking an opportunity to improve their outdoor skills in a relaxed, noncompetitive atmosphere. The emphasis is on the enjoyment, fun and camaraderie of outdoor activities and sharing in the success of one another. The program offers instruction in more than two dozen different types of activities, including kayaking, basic land navigation, lake fishing, mountain biking, shooting sports, boating and boating safety, birding, outdoor photography and backpacking.

BOW participants stay and take their classes at the Bay Cliff Health Camp, a universally accessible facility overlooking Lake Superior, which is situated about 30 miles north of Marquette at Big Bay. Participants will be housed in a dorm-style facility with amenities including a sauna, hiking and biking trails, along with easy access to northern hardwood forests and Lake Superior. The summer program typically fills quickly, so early registration is encouraged.

The \$300 registration fee includes all food and lodging, as well as most equipment and supplies. A limited number of partial BOW scholarships are available to help low-income participants with the cost of registration. The scholarship application deadline is May 8.

Class information and registration materials are available online at [Michigan.gov/BOW](http://Michigan.gov/BOW). Registrations must be mailed, with payment, to the Marquette Customer Service Center stated on the form.

For more information on the BOW program, contact Michelle Douglas at the DNR Incident Coordination Center in Harvey at 906-235-2076, or by email at [DNRBOW@Michigan.gov](mailto:DNRBOW@Michigan.gov).

## Western Upper Peninsula Citizens Advisory Council

There are two 20-member Upper Peninsula citizen advisory councils, east and west, designed to provide local input to advise the DNR on regional programs and policies, identify areas in which the department can be more effective and responsive, and offer insight and guidance from members' own experiences and constituencies. The Western Upper Peninsula Advisory Council draws its membership from Marquette, Delta, Dickinson, Menominee, Baraga, Iron, Gogebic, Ontonagon, Houghton and Keweenaw Members represent a wide spectrum of natural resource and recreation interests from hunters, boaters and off-road vehicle riders, to foresters, birdwatchers and skiers.

Applications are accepted at any time from interested Upper Peninsula residents to sit on the councils. Applications are reviewed if/when openings occur. For more information contact Stacy Welling Haughey, DNR Upper Peninsula field deputy at 906-226-1331. The next Western UP Citizens Advisory Council meeting will be held on Thursday, May 30, 6pm ET/5pm CT at Gogebic Community College in Ironwood and is open to the public.

**The Ottawa National Forest RAC is Reforming**

Secretary of Agriculture Tom Vilsack appointed 15 people to serve on the new Ottawa National Forest Resource Advisory Committee (RAC) on February 12, 2024. The RAC consists of committee members representing varied interests and areas of expertise, who work collaboratively to improve working relationships among community members and National Forest personnel. The Ottawa National Forest Resource Advisory Committee (RAC) will be inviting public proposals to invest approximately \$780,000 of accumulated funds authorized by the Secure Rural Schools Act. Project proposals must benefit National Forest lands in Gogebic, Ontonagon, Iron, Baraga, Houghton and Marquette Counties that meet criteria for activities that improve natural resources. At least 50% of all project funds are to be used for projects that are primarily dedicated to road maintenance, decommissioning, or obliteration; or the restoration of streams and watersheds.

This year the Forest Service delivered \$736,302.73 of Title 1 funds to Gogebic, Ontonagon, Baraga, and Marquette Counties. Gogebic and Ontonagon Counties have selected Title II payments from the Secure Rural Schools Act Funds; these funds are to be used for RAC-recommended projects that benefit National Forest lands.

The Ottawa NF RAC highly encourages consulting with Ottawa NF staff to develop projects and ensure you have accurate information for the RAC to consider. Examples of eligible projects include: Watershed restoration activities, Maintenance of roads or trails, Hazardous fuels reduction, Improvements in forest ecosystem health, Improvement of wildlife and fish habitat, Control of invasive plants and/or re-establishment of native species, Enhancement of National Forest recreation sites.

Proposals are welcome from any source. Individuals, tribes, businesses, non-profit organizations, and government agencies are eligible for funding consideration through grants, cooperative agreements, and traditional contracting procedures with the Ottawa National Forest.

More information on how to propose a RAC project will come after the first meeting of the RAC, which is expected this spring. Contact Paul Holeva at Paul.Holeva@usda.gov if you are interested in applying. Below are past project examples recommended for funding by Ottawa NF Resource Advisory Committees.

## SEEN ON FACEBOOK - UPCYCLE YOUR OLD RAKE

Don't throw out that old rake, here's a great upcycle idea!!

- Clean the Rake:** Ensure your old rake is clean and free from rust. A wire brush can help remove any flaking metal or rust.
- Secure Oranges:** Attach whole oranges to the tines of the rake. You can either impale the oranges directly onto the tines, or use twine or wire to tie them securely.
- Hang the Rake:** Choose a spot outdoors where birds frequent. Hang the rake by its handle from a tree branch or a hook near your garden. Ensure it's stable to prevent swinging, which could scare the birds away.
- Watch and Enjoy:** Refill with fresh oranges as needed and enjoy watching a variety of birds visit your new feeder.
